

PMI Agile Certified Practitioner (PMI-ACP)[®] Exam Preparation Training

Why the PMI-ACP[®] certification?

Created by agilists for agilists. If agility and delivering high value outcomes frequently is your focus, then the PMI Agile Certified Practitioner (PMI-ACP)[®] is for you.

Organizations that are highly agile and responsive to market dynamics complete more projects successfully than their slower-moving counterparts.

The PMI-ACP[®] spans many approaches to agile such as Scrum, Kanban, Lean, extreme programming (XP) and test-driven development (TDD). This course will increase your versatility, where ever your projects may take you.

The PMI-ACP[®] delivers strong positive outcomes for practitioners. It offers increased credibility because it is the only Agile Certification that requires a combination of training, experience and proven understanding through examination.

Millpond is an Authorized Training Partner (A.T.P.) with the Project Management Institute, Inc (PMI)[®].

Training with an Authorized Training Partner ensures you are trained:

- By an organization you can trust
- With high-quality PMI-developed course content
- By PMI-approved and vetted instructors

In order to become a PMI A.T.P. an organization has to meet (or exceed) PMI's rigorous quality standards and requirements.

*A current PMP® or PgMP® will satisfy this requirement but is not required to apply for the PMI-ACP®.

To maintain your PMI-ACP®, you must earn 30 professional development units (PDUs) in agile topics every three years.

Our trainer was amazing. It is not often you can sit in a classroom all day and stay engaged so well done to the presenter for keeping it interesting and relevant.

Great delivery. Training was well presented and our trainer exhibited excellent knowledge of the material. He kept everyone engaged and I found his training style really enjoyable.

One of the best training courses I have been on.
