

Portfolio & Project Management as a Service (PPMaaS)

A tailored solution that supports your project management

“Ensure that your resources are working on the **right things** at the **right times.**”

Our services

PPM Service

Facilitate efficient project management and portfolio visibility.

PPM Software

Increase new collaboration and track progress to support decision making.

Millpond offers Portfolio and Project Management as a Service (PPMaaS) - a solution designed to standardise your project delivery practices.

We provide you with an overall view of the portfolio health that spans the entire project life cycle. Our service aims to resolve friction between projects and day-to-day operations related to resource overallocation and missed deadlines.

Our frameworks provide robust portfolio and project templates, reporting and dashboards. We tailor our Portfolio and Project Management services and templates to meet our client's specific requirements.

What is our Portfolio Management as a Service?

Doing the right things...

Portfolio Management translates your goals into specific initiatives that form the foundation for projects. The objective is to balance initiatives through prioritisation to ensure return on investment.

You'll get a consolidated view of all your approved initiatives in the delivery pipeline, including a comparison of budget vs actuals, resource demand and capacity.

Key benefits for you

- **Real time insights and scenario planning** – through portfolio and projects reporting and dashboard.
- **Drive success** – our experts will guide and mentor you along the way to ensure successful project delivery.
- **Remove overhead costs and investment in tools and development of your own in-house processes** – only pay for the services you need.

What is our Project Management as a Service?

Doing the things right...

The framework we use has been built based on global standards and many years working with our clients. This allows us to tailor solutions that are adaptable to your needs.

Our team of experts will work with you to understand your goals and tailor a solution to make sure that projects and programmes are effectively planned, executed, controlled and successfully delivered.

Key benefits for you

- **Get the right fit** – customised and scalable project processes, tools and templates that align with your goals.
- **Gain control** – oversight of your projects using dashboard views. You'll see your milestones, budget, risks at a glance.
- **Boost capability** – our experts will coach your team in the use of tools and processes.
- **Free up your team** – let us provide you with best practice project management training.

Our purpose is to create the momentum you need to move your organisation forward.

Why Millpond?

Proven process and methodologies

Some of New Zealand's largest and most successful organisations use Millpond because we offer a unique mix of capabilities, **we summarise these as our 'four Ps':**
