Prerequisites

- There are no formal pre-requisites for this course, although these would help.
- a familiarity with a project environment
- a desire to help your project team succeed!

About the Trainer: Richard has been working in the IT industry for over 40 years and a Business Analyst for the last 17. He spent 10 years with Canterbury University and worked on over 50 projects, before Senior BA roles with Christchurch consulting companies. He brings a wealth of experience in business analysis and a personal passion for supporting people in their IT journey. He also produced and taught hundreds of training courses during his career, and participant feedback was always very positive.

Richards friendly and positive approach to training is appreciated. He is a careful, patient and considerate trainer, always determined to make learning accessible and fun to all participant levels.
